

NAITO PARKWAY RAMP OPTIONS

The Naito Parkway Ramp to the Morrison Bridge connects the bridge and Naito Parkway (which will be striped with bicycle lanes in 2004). This ramp will also be the most direct connection between the bridge path and Waterfront Park.

BASIC IMPROVEMENT:
Widens the existing 7-foot sidewalk to 14 feet.

- ENHANCED IMPROVEMENT OPTION: REBUILD THE INTERSECTION**
- Provides more room for cyclists and pedestrians.
 - Eliminates unprotected pedestrian crossing.
 - One or two existing trees would be lost.

Estimated Cost: \$124,000
